

Vanishing Twin

Vanishing twin syndrome is diagnosed if ultrasound was used during early pregnancy. The twin could be absorbed in the womb or absorbed by the other twin giving the surviving twin two DNA – called chimera, as a teratoma tumor, containing bone, hair, teeth, and other foetal tissues; or a baby's skeleton is seen on an x-ray of an adult.

A human chimera may experience a conflict of identity. If a person has both male and female cells, sexual confusion or disorientation might be expected. Most chimeras look normal - only DNA testing from multiple body parts can prove whether a person is a chimera.

Father God, in the name of Jesus Christ of Nazareth, we bring before You every curse put in place while the twins were in the womb; we ask You to dismantle every structure.

In the Name of Jesus Christ of Nazareth, we ask You to reverse every curse uttered and specifically the words: “Bone of my bone and flesh of my flesh” ... this knitted the twins together in a very powerful way – Father, please break this demonic covenant made between the twins in the Name of Jesus Christ of Nazareth.

We ask You to cut the spirit and soul ties still connecting the living twin with the dead twin. We ask You to receive the spirit of the dead twin and to separate the two from one another, body, soul, and spirit. We ask You to remove everything that belonged to the dead twin -- this caused so much confusion for the living twin as the two were so intertwined together. Please remove all confusion and restore the living twin to the person You ordained him/her to be from the beginning of time. Untangle their DNA strands that got intertwined in the Name of Jesus Christ of Nazareth.

The living twin must release the spirit of the dead twin to the LORD. The dead human spirit attaches itself to living baby and lives its life through this baby's body as it does not have a body to express itself through.

Father God, we ask you the person who feels confused and does not really know who they are, especially if the twin was the opposite sex. We ask You to restore any gender confusion if the dead twin was of the opposite sex, in the Name of Jesus Christ of Nazareth. Please restore the balance to my hormones, Father.

Help me to find my identity according to my DNA as You determined who I would be before the beginning of time. I choose to embrace Your plan for my life.

Amen.
